

## EXCELLENCE INSIDE DOES NOT HAPPEN BY CHANCE.

Since 1973 we have grown to a team of around 750 specialists, working together in 6 countries to offer our clients outstanding products and solutions in the field of endoscopic visualization systems.

SCHÖLLY is active in the following business fields:

### MEDICAL ENDOSCOPY

### VISUAL INSPECTION

## OUR EMPLOYEES ARE OUR ASSET

Ever since the company was established, we have known that a successful business cannot function without highly skilled employees who enjoy their work and are able to identify with what they do.

In our view, the principle of vocational training – both in a company and at a vocational college – provides the best foundation for a future career. We therefore offer apprenticeships in various professional areas each year.

Discover  
**EXCELLENCE  
INSIDE** and gather  
work experience  
right in the heart of  
the action!

## OPPORTUNITIES FOR STUDENTS

For years we have been working successfully with students. Every year, topics in areas closely connected to our products or industrial production are available for thesis and practical semesters.

Most of the theses and practical internships are carried out in the following areas:

- Product Management
- Research + Development
- Quality Technics | Test Laboratory
- Quality Management
- Marketing + Sales
- Production + Logistics
- Regulatory Affairs

Take your chance to turn your theoretical knowledge into practice and profit from our future-oriented know how.

## EMPLOYEE MOTIVATION AND PERFORMANCE

What distinguishes SCHÖLLY employees, in addition to their professional qualification, is the enthusiasm with which they go to work. We promote this attitude with our philosophy of valuing each individual equally and of learning by doing – both from and with others.

**EXCELLENCE INSIDE**  
CAN BE FOUND IN EACH OF US.

We rely on a good blend of young and very experienced employees who take on their tasks with enthusiasm. SCHÖLLY has a reputation of being a safe and reliable employer who is favoring long-term partnerships and values its employees.

### EXCELLENCE INSIDE

explains what SCHÖLLY is all about, as ...

- thereby we give customers and partners a promise.
- we think in our customers' requirements.
- thereby our high expectations towards ourselves, our products and services become apparent.
- it reflects the skills and motivation of our employees.
- it stands for the quality of our components.
- it describes the enthusiasm for what we do.

## PRACTICAL SEMESTER AND THESIS

A practical semester at SCHÖLLY is a good choice. We have years of experience with students in their internship. We can link you with current engineering projects and support you in your development of practical competence.

## THESIS

Your thesis is the key to a good start into professional life. Make use of putting your knowledge into practice and profit from our future-oriented know how.

## STARTING YOUR CAREER

Just finished your studies – and what's next?

What would be more logical than to stay with us. But even without prior cooperation you can start your career with us. As a product manager, R+D engineer or quality control manager for example.

If EXCELLENCE INSIDE also represents your values, we look forward to receiving your online application on [www.schoelly.de/career](http://www.schoelly.de/career)

### SCHÖLLY FIBEROPTIC GMBH, Denzlingen
