Schölly employee honored: With the company for 40 years

Thanh Xuan Vi is currently looking back on 40 years of activity as a fiber optics specialist at Schölly Fiberoptic GmbH. The management honored him in October as an employee of the early years of the company.

Thanh Xuan Vi is the longest employee on duty, a fact which Regula Schölly emphasized and particularly appreciated when she honored him with the words "He was always with us".

Arriving in Kollnau, Germany, in 1980 as a refugee from Laos via Vietnam, his anniversary symbolizes a special topicality in today's world. Mr. Vi arrived, applied for a job as a fiber optics specialist, got his chance and took it. He built his life in Germany and started a family. His six children have all studied and are now spread all over the world.

In a small ceremony, the management congratulated him and thanked him for his remarkable commitment, his loyalty and his high degree of collegiality and helpfulness.

Additional information

Schölly Fiberoptic GmbH is a global family enterprise with its headquarters in Denzlingen, in the state of Baden-Wuerttemberg. The company's main focus is the engineering and production of customer-specific visualization systems for the business fields of Medical Endoscopy and Visual Inspection.

From endoscopes, camera systems, and light modules, all the way to complex visualization systems, the company offers a wide range of products and services. It was and is the driving force behind the transition from 2D to 3D visualization systems and in the miniaturization of endoscopes.

The company was founded in 1973 and has about 650 employees worldwide. Its six sales and service branches are, along with the corporate headquarters, responsible for the support of the globally active customers and the acquisition of new projects.
