

Press release

Denzlingen, 6 April 2022

New Managing Director (CFO)

Markus Wintz has been Managing Director at Schölly Fiberoptic GmbH since March 17, 2022 and is responsible for the Corporate Services division. Wintz thus takes over the Finance, Legal IT, HR, and Master Data Management departments. He succeeds Mirko Beiser, who passed away in the fall of 2021.

Markus Wintz has many years of experience in the commercial management of companies in the plant engineering, pharmaceutical and biotechnology industries. Together with Regula Schölly and CEO Prof. Dr. Holger Reinecke, he forms the current three-member management team as CFO.

"We are looking forward to working with Mr. Wintz. The past few months have been difficult to cope with. The entire team had to put in a very great effort. Now we have an experienced businessman and mechanical engineering graduate on board for this position of trust, who also convinces us in human terms. We are very happy about this," says Regula Schölly.

More information

Schölly Fiberoptic GmbH is a globally active company with family values headquartered in Denzlingen, Germany. The focus is on engineering, registration, production, and worldwide service of customer-specific visualization systems for the business fields Medical Endoscopy and Visual Inspection.

From endoscopes, camera systems and light modules to complex visualization systems, the company offers a wide range of products and services. The entire range of products and services is designed to provide users with an excellent view of their field of application and to open up new perspectives for health and technical progress.

The company was founded in 1973 and employs more than 550 people worldwide; about 350 of them in Denzlingen. Together with the headquarters, the six sales and service subsidiaries are responsible for supporting globally active customers as well as for the acquisition of new projects. The share of development costs is over 10 percent. Aesculap AG has been the main shareholder since April 2021. The Schölly family is a major shareholder.
